

NHCC is offering a new 4-credit  
computer programming class ...

# C# for .NET

C# is a component of Visual Studio .NET development environment. It is designed to be less complex but more secure than the currently widely-used programming language C++.

Programmers cannot afford to stay behind this latest trend in Windows programming!

CSci 1150-91

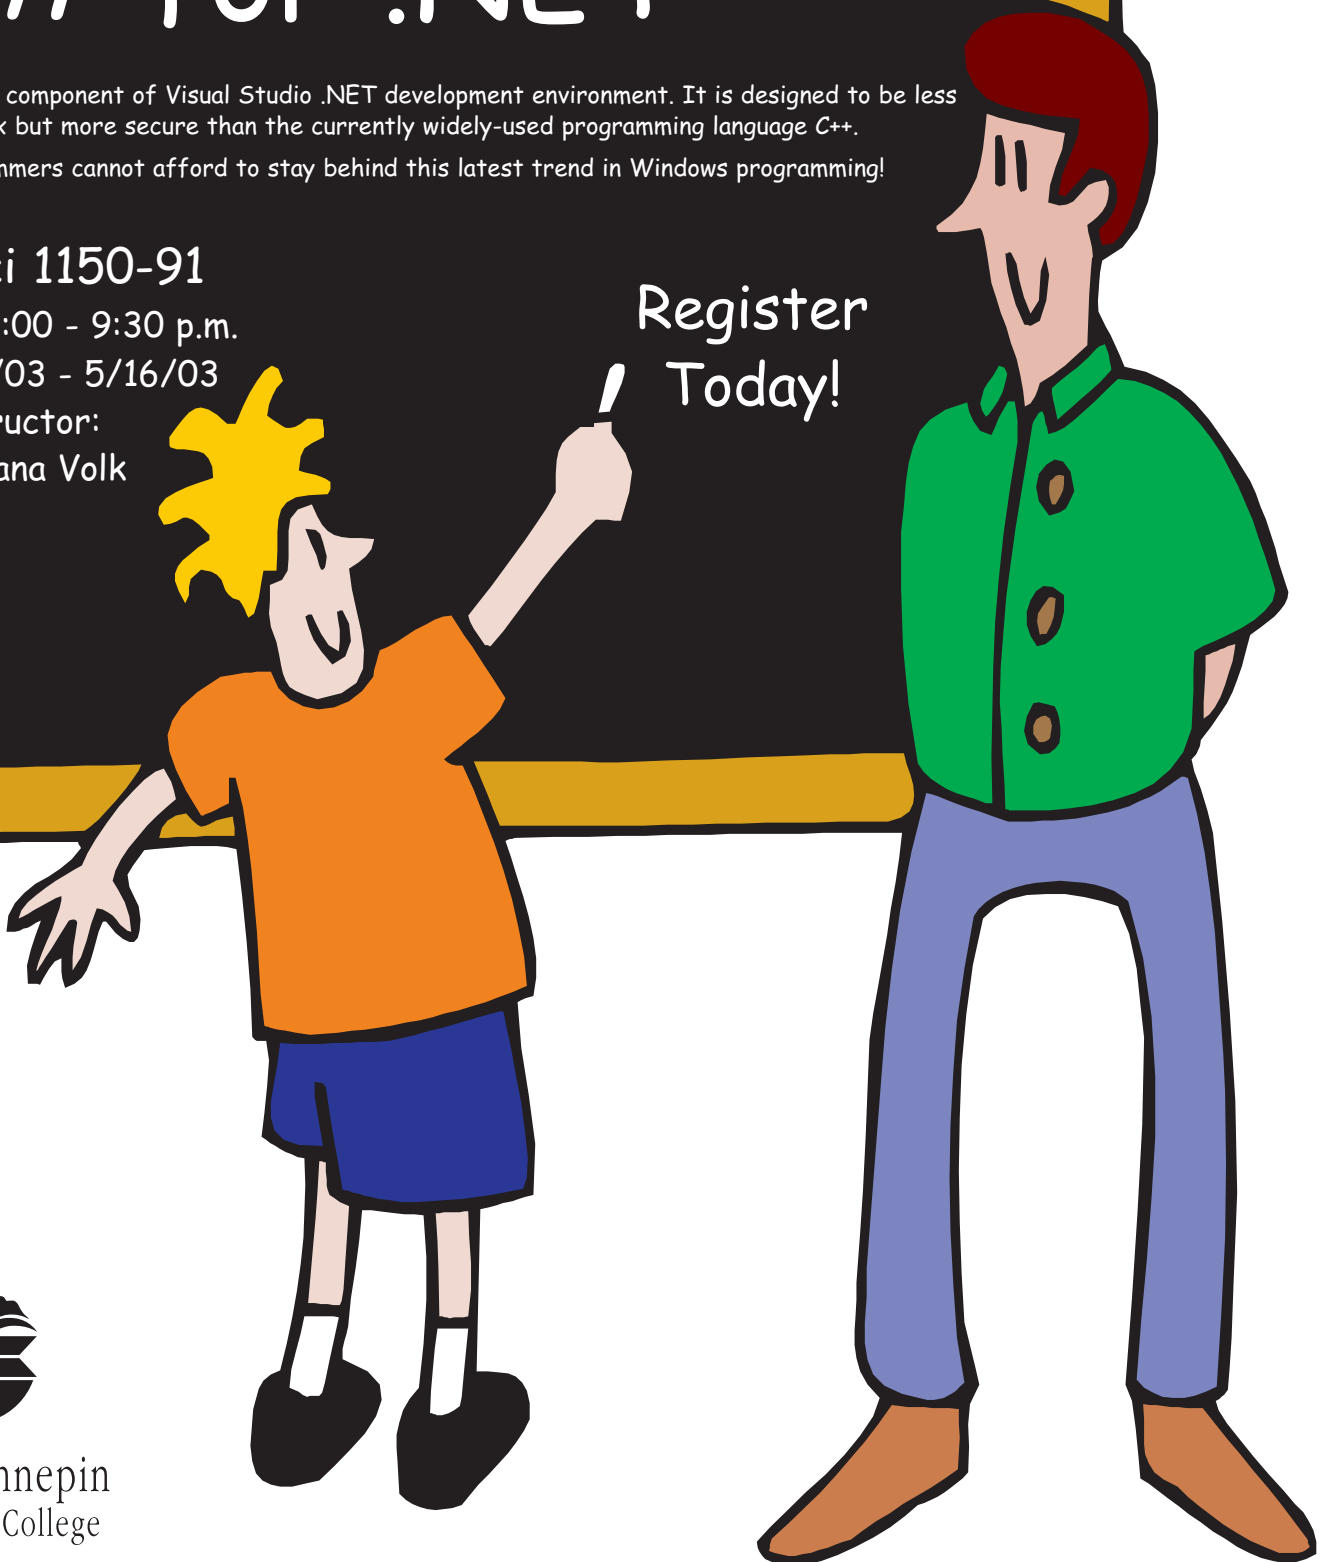

H • 6:00 - 9:30 p.m.

1/16/03 - 5/16/03
